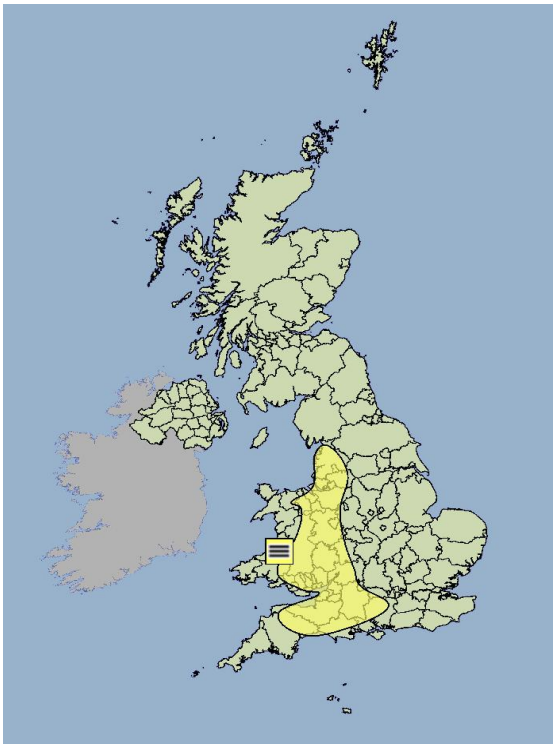
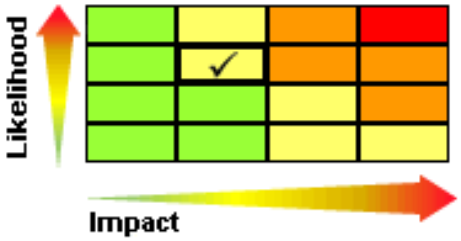
National Severe Weather Warning Service





Chief Forecasters Assessment
While visibilities are still below 100 metres in places, fog will thin from the east this morning. However, some patches may persist into the afternoon in the west of the warning area.

The Met Office have issued a **Yellow Warning** of **Fog**

Valid from **05:45 on Thu, 11th Jan 2018** until **11:00 on Thu, 11th Jan 2018**

Fog has affected many areas overnight into this morning. The warning has been updated by reducing its eastward extent, to reflect recent lifting of fog across parts of the Midlands and southern England.

Slower journey times are possible and there is a chance of delays to flights.
